Press Release

An important notice to the public of this country

The so called private medical school at Malabe, established a few years back has now proven to be an institution running without any permission or standards required by the SLMC. It has got no approval from any authority. This is a fact which has already been observed by the five member committee appointed by the Honorable minister of health to look in to the process of establishment of this institution. But this business venture seems to be continuing it's campaign of misleading the innocent parents and students of this country by advertising itself at the television hiding the fact that it has got no private teaching hospital for it's students to train.

We kindly request the people of this country to refrain from being misled by this business propaganda aimed at benefiting from the dream of many to be a doctor. Further we urge the government to take necessary actions against this institution based on the five member committee report.

We welcome the stand of the Mahajana Eksath Peramuna led by Hon Dinesh Gunawardena-Chief Government Whip, on this regard.

Further we wish to complain Minister of Media against allowing this PMC to abuse government media to mislead the innocent public.

Thank You
Yours faithfully

Dr.Chandika Epitakaduwa
Secretary
